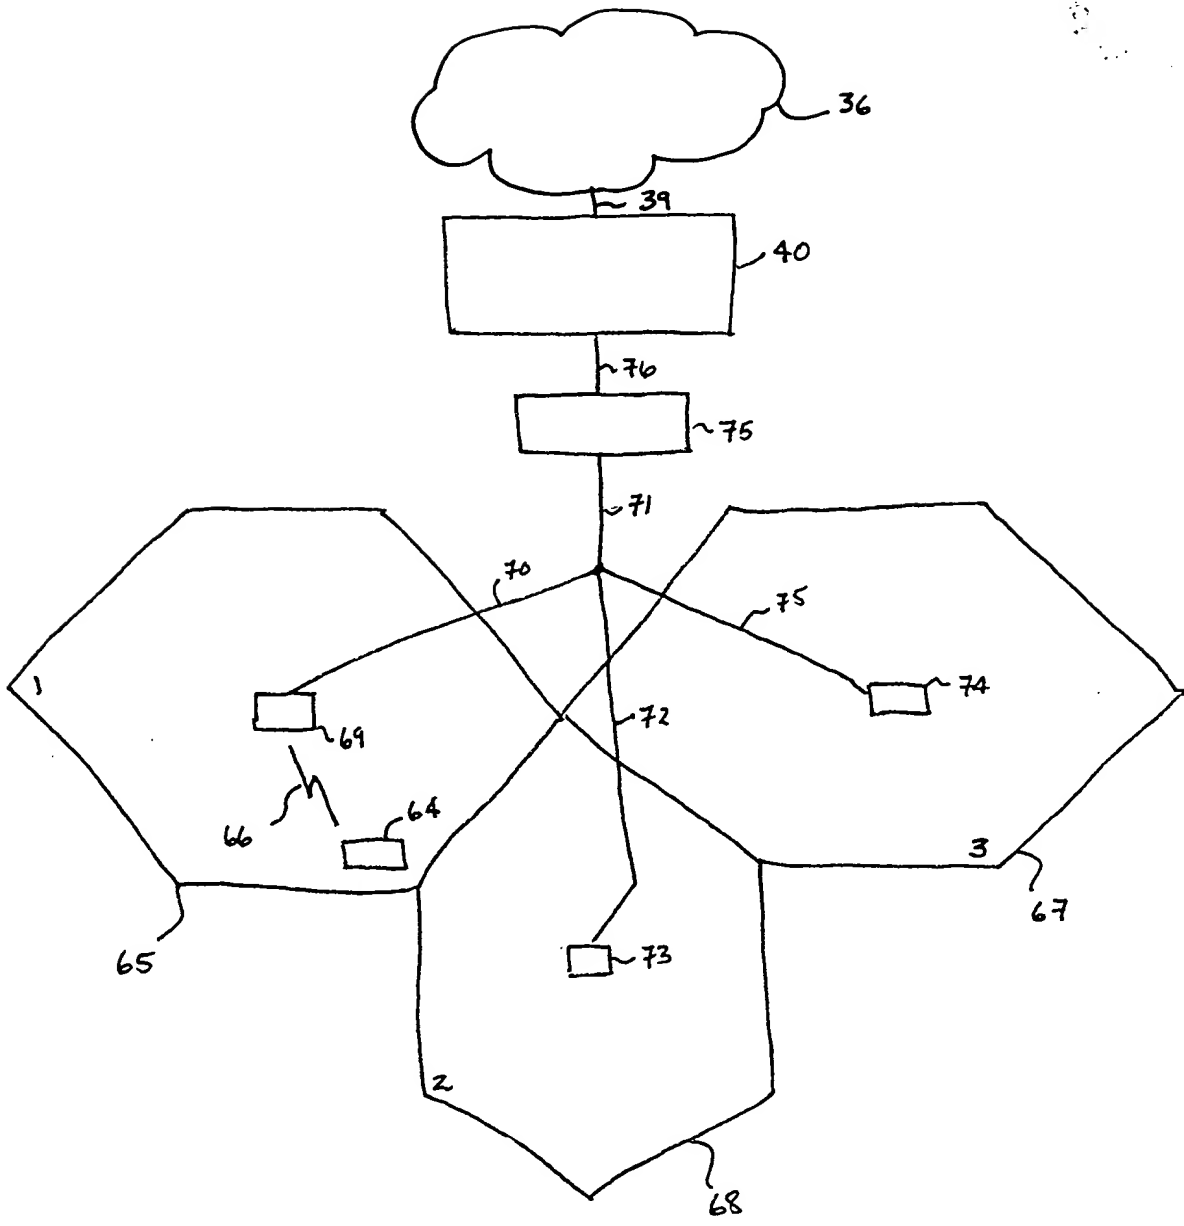

FIGURE 1

The diagram illustrates a system architecture with the following components and connections:

- Top Section:**
  - A box labeled **60** is connected via line **62** to a larger box labeled **40**.
  - Inside box **40**, there is a sub-component labeled **50** which contains two smaller boxes: **47** (top) and **58** (bottom).
  - Between boxes **47** and **58** are labels **52** and **54**.
  - Box **40** is connected via line **37** to a cloud labeled **35**.
- Left Section:**
  - A box labeled **64** is shown with a lightning bolt symbol labeled **66** nearby.
- Bottom Section:**
  - A large box labeled **10** contains two main components: **28** (top) and **27** (bottom).
  - Component **28** is labeled **HA** and is connected to component **24**.
  - Component **27** is labeled **BR** and is connected to component **26**.
  - Component **26** is connected via line **20** to a box labeled **30**.
  - Box **30** is connected to the cloud **35**.
